## Location Group Additional Variant Surcharge

OrderWise Ref:	53480
Menu Option:	Admin   Configuration   Location Groups   [Edit]   Pricing   Variant Surcharge <ul style="list-style-type: none"> <li>• Variant Surcharge Net</li> <li>• Variant Surcharge Gross</li> </ul> Admin   Settings   Products & Categories   Exporting   Location Group Surcharge Excluded Variant Analysis Field
Status:	New Development
Platform:	Trade Portal & Layout Editor
Licensed Feature:	No
Detail:	Variant Surcharges can be set against a Location Group within the Admin area. When a surcharge is set, prices will display as £xx.xx until the User clicks the 'Calculate delivery-based pricing' link which will open a 'Calculate Delivery' modal, where Users will enter their Country and Post Code. Once entered this will display prices which will include the surcharges. Variants can be excluded by using the analysis field.

## Pricing Display Based on Variant Area

OrderWise Ref:	53485
Menu Option:	Admin   Settings   Stock & Pricing   Price Display <ul style="list-style-type: none"> <li>• Show Area Based Pricing</li> <li>• Variant Area Analysis Field</li> <li>• Area Unit</li> </ul>
Status:	New Development
Platform:	Trade Portal & Layout Editor
Licensed Feature:	No
Detail:	With 'Show Area Based Pricing' enabled and a value is synced using the analysis field that matches 'Variant Area Analysis Field', the pricing will display as '£x per y'. y is the value specified by 'Area Unit' (e.g. m <sup>2</sup> ) and x is the total price divided by the analysis field value.

## Single Use Coupon Code Per Customer/Import Coupon Codes

OrderWise Ref:	53255
Menu Option:	Admin   Orders   Promotions   [Edit]   Conditions   [Add Condition] <ul style="list-style-type: none"> <li>• Single-Use Per Customer</li> <li>• Is Single-Use Per Coupon Code</li> </ul> Admin   Modules   Promotions   Settings   Importing <ul style="list-style-type: none"> <li>• Coupon Code Sales Order Analysis</li> </ul>
Status:	Enhancement
Platform:	Trade Portal & Layout Editor
Licensed Feature:	No
Detail:	Using the 'Single-Use Per Customer' condition means that a promotion is available once per customer. When using the 'Is Single Use Per Coupon Code' setting, this will treat each code as its own promotion. With the 'Coupon Code Sales Order Analysis' field set, the coupon code will be imported into the Sales Order when importing.

## Opayo 'Apply3dsecure' Parameter

OrderWise Ref:	55454
Menu Option:	N/A
Status:	Enhancement
Platform:	Trade Portal & Layout Editor
Licensed Feature:	No
Detail:	Whilst using the Opayo Direct payment method, when viewing the Payment Logs in the Admin Order Details, the 'Apply3dsecure' will be set to '0'.
