### Alternate Text Shown when Ribbon Image not Loaded

OrderWise Ref: 52455  
 Menu Option: Admin | Products | Ribbons | [New/Edit] Details [tab]  
     • Text  
 Status: Enhancement  
 Platform: Layout Editor  
 Licensed Feature: No  
 Detail: If a 'Standalone image' ribbon type is used on the Product page, but the image fails to load, the value in the 'Text' field will appear instead.

### Guest User Emails Recorded in Stock Notifications Table

OrderWise Ref: 52459  
 Menu Option: Admin | Modules | Stock Notifications | Settings | Stock Notifications  
 Status: Enhancement  
 Platform: Layout Editor  
 Licensed Feature: No  
 Detail: If a Guest User chooses to receive notifications when a Product is back in stock, their email address is recorded in the table of stock notifications in the 'Stock Notifications' module.

### Delivery Addresses Column Added to Customers Table

OrderWise Ref: 50293  
 Menu Option: Admin | Customers | All Customers  
     • Delivery Addresses  
 Status: New Development  
 Platform: Trade Portal & Layout Editor  
 Licensed Feature: No  
 Detail: The Customers table in the Admin panel contains a 'Delivery Addresses' column. The column shows the total number of delivery addresses for each User.

### Alternate Variant Codes Functionality Improved

OrderWise Ref: 54501  
 Menu Option: Admin | Settings | Products & Categories | Alternate Variant Codes [tab]  
 Status: New Development  
 Platform: Trade Portal & Layout Editor  
 Licensed Feature: No  
 Detail: All settings relating to the Alternate Variant Codes functionality can be found in the 'Alternate Variant Codes' tab of the Products & Categories settings. The maximum amount of alternate codes to initially display can be set using the 'Alternate Variant Code Max Display' setting, but Users can view them all by clicking the 'Show More' button. Clicking 'Show Less' will display the previous amount again. The order of the table columns can be changed using the 'Alternate Variant Code Column Order' setting and the formatting of the Alternate Variant Codes table can be changed using the 'Alternate Variant Code Show As List On Product Page' setting.

## Hide Menus on Category Landing Pages

OrderWise Ref: 52186  
 Menu Option: Admin | Settings | Products & Categories | Landing Pages [tab]
 

- Hide Category Landing Page Menus Across All Categories

 Status: New Development  
 Platform: Trade Portal & Layout Editor  
 Licensed Feature: No  
 Detail: With the above setting enabled, the category landing pages will not display the sub-category sidebar menus that normally appear.

## Standard Product Price Displayed Before Calculating Delivery-Based Pricing

OrderWise Ref: 56108  
 Menu Option: Admin | Configuration | Translations | Product Delivery Price [tab]
 

- Product Delivery Price > cannot\_add\_to\_basket\_message\_url\_text
- Product Delivery Price > cannot\_add\_to\_basket\_message

 Status: Enhancement  
 Platform: Trade Portal & Layout Editor  
 Licensed Feature: No  
 Detail: If a location group has a Variant surcharge set up, the Product pages will display the standard Product prices. This will change when the delivery-based pricing is calculated. Products cannot be added to the basket until this pricing has been calculated, so a message will appear to explain this. The message can be changed using the above translations.

## Courier/Tracking Information Hidden on 'Delivery Shipped' Email

OrderWise Ref: 51130  
 Menu Option: N/A  
 Status: Enhancement  
 Platform: Trade Portal & Layout Editor  
 Licensed Feature: No  
 Detail: If the method, courier name or tracking number of a delivery do not have valid values, these lines are removed from the 'Delivery Shipped' email.

## 'Delivery Calculator' Block Added to Layout Editor

OrderWise Ref: 54536  
 Menu Option: Layout Editor | Available Layouts | Product Page | [Add Product Attribute]
 

- Delivery Calculator

 Status: New Development  
 Platform: Layout Editor  
 Licensed Feature: No  
 Detail: If a 'Delivery Calculator' block is added to the Product page and the delivery calculator functionality is enabled, a table will appear on the Product page that shows which delivery methods are available for the selected Product, postcode, quantity and weight. The table will not take into account other Products that are already in the basket.

## Stock Levels Recalculated when Purchasing Manufactured Variants

OrderWise Ref:	54376
Menu Option:	Admin   Settings   Stock & Pricing   Stock Level Control [tab] <ul style="list-style-type: none"> <li>• Include Available To Build Stock In Available To Purchase Amount</li> <li>• Manufactured Variant Stock Allocation Order</li> </ul>
Status:	New Development
Platform:	Trade Portal & Layout Editor
Licensed Feature:	No
Detail:	If a Manufactured Variant is purchased, the stock levels of other Variants are recalculated. The Component Variant stock levels will be reduced, as will the stock levels of other Manufactured Variants that could have been built using the same components. The latter is only true if the 'Include Available To Build Stock In Available To Purchase Amount' setting is enabled. The stock levels of components may not be recalculated if stock is obtained by means other than 'Available To Build', which can be controlled using the 'Manufactured Variant Stock Allocation Order' setting.

## Payment via iDEAL when using Stripe Checkout

OrderWise Ref:	54759
Menu Option:	Admin   Configuration   Payment Methods   [New/Edit]   Settings [tab] <ul style="list-style-type: none"> <li>• Payment Method Types</li> </ul> Admin   Orders   All Orders   [View]   Successful Payments   [Review]   Payment Logs   [View] <ul style="list-style-type: none"> <li>• Copy to clipboard</li> <li>• Toggle fullscreen</li> </ul>
Status:	New Development
Platform:	Trade Portal & Layout Editor
Licensed Feature:	No
Detail:	When a payment method of 'Stripe Checkout' is created/edited in the Admin panel, the payment method type can be set to 'Card', 'iDEAL' or both. This allows payment via either a credit card or iDEAL when completing the checkout process with Stripe Checkout. Paying with iDEAL is only possible when the sites' base currency is in Euros. If an order is completed using Stripe Checkout, the payment logs in the Admin panel's 'All Orders' page will record the request data sent to Stripe with millisecond precision. The payment log section includes 'Copy to clipboard' and 'Toggle fullscreen' functionality buttons.

## Variant Units of Measurement (UOM) Displayed on Product Page

OrderWise Ref:	54799
Menu Option:	Layout Editor   Available Layouts   Product Page <ul style="list-style-type: none"> <li>• [Add Product Attribute]           <ul style="list-style-type: none"> <li>○ UOM</li> </ul> </li> <li>• [Add Block]   Product Details   Settings   Content           <ul style="list-style-type: none"> <li>○ UOM</li> </ul> </li> <li>• [Add Block]   Product Details   Settings   Content Styling           <ul style="list-style-type: none"> <li>○ UOM Label</li> </ul> </li> </ul>
Status:	New Development
Platform:	Layout Editor
Licensed Feature:	No
Detail:	In the Layout Editor, both the 'UOM' block and the 'Product Details' block can be used to show a Variant's UOM (Units of Measurement) on the Product page.

## Additional Location Group Variant Surcharge Discounts

OrderWise Ref: 53483  
 Menu Option: Admin | Settings | Checkout & Basket | Location Group Surcharge [tab]  
 Status: New Development  
 Platform: Trade Portal & Layout Editor  
 Licensed Feature: No  
 Detail: Variants marked as ‘Stackable On Pallet’ will be able to receive a discount based on the Location Group Surcharges. These discounts will be applied to subsequent lines, and Users can set the maximum weight in which the pallet can hold before needing another pallet. Please note – ‘Location Group Surcharge Excluded Variant Analysis Field’ setting has been moved to the setting path mentioned above.

## PunchOut2Go Integration

OrderWise Ref: 51213  
 Menu Option: Admin | Modules | PunchOut2Go Integration  
 Admin | Configuration | Payment Methods | [New/Edit]
 

- Details [tab] | Gateway
  - PunchOut2Go
- Settings [tab]
  - Allow Cancelling The PunchOut2Go Session In The Checkout

 Admin | Configuration | Translations | Punchout2go [tab]
 

- Punchout2go > error\_sending\_cart
- Punchout2go > cancel\_session\_confirm\_text
- Punchout2go > cancel\_session\_link\_text
- Punchout2go > cancel\_session\_link\_wrapper\_text

 Status: New Development  
 Platform: Trade Portal & Layout Editor  
 Licensed Feature: Yes (PunchOut2Go Integration)  
 Detail: If the ‘PunchOut2Go Integration’ module is enabled, PunchOut2Go can be used as the payment gateway for an order. Having the ‘Allow Cancelling The PunchOut2Go Session In The Checkout’ payment method setting enabled allows the PunchOut2Go session to be cancelled. This is done via a modal, and some of the text can be changed using the above translations.

## Personnel Packs

OrderWise Ref: 55123  
 Menu Option: Admin | Modules
 

- Personnel Packs

 Admin | Customers | [Edit] | Customer [tab]
 

- Logo | [Browse]

 Status: New Development  
 Platform: Layout Editor  
 Licensed Feature: Yes (Personnel Packs)  
 Detail: With the Personnel Packs module enabled, Customers marked as a ‘Primary Supervisor’ or ‘Supervisor’ have an area within the My Account section where they can order and manage items for Users.
